

# Fact Sheet

## Medical Products

Abbott is an innovative leader in fast-paced, high-growth medical technology businesses. The company's medical products are advancing disease diagnosis, diabetes management and the treatment of vascular disease. Abbott had worldwide revenues of \$7.2 billion in its Medical Products businesses in 2008.

### Key Businesses/Products

#### *Animal Health*

- **AlphaTRAK<sup>®</sup>** – Provides veterinarians with fast, convenient and accurate blood glucose results for dogs and cats.

#### *Diabetes Care*

- **Glucose Monitoring Systems/Test Strips** – Abbott's leading-edge glucose monitoring systems and test strips in the U.S. include FreeStyle Flash<sup>®</sup>, Freestyle Lite<sup>®</sup>, Precision Xtra<sup>®</sup> and Freestyle Navigator<sup>®</sup>.

#### *Laboratory Diagnostics*

- **Diagnostic Instrument Systems** – Abbott offers a broad range of innovative systems and tests for hospitals, labs and clinics, including the ARCHITECT<sup>®</sup> and AxSYM<sup>®</sup> immunoassay analyzers, the ABBOTT PRISM<sup>®</sup> fully automated blood screening system and the CELL-DYN<sup>®</sup> hematology platform.

#### *Molecular Diagnostics*

- **m2000<sup>™</sup> and RealTime tests** – Abbott offers the m2000 molecular diagnostic system and RealTime PCR tests for hepatitis, HIV-1, chlamydia and gonorrhea.
- **PathVysion<sup>®</sup> and UroVysion<sup>™</sup> DNA Probe Kits** – PathVysion detects the HER-2 gene in breast cancer patients, and UroVysion monitors for the recurrence of bladder cancer.

#### *Point of Care*

- **i-STAT<sup>®</sup> System** – The i-STAT handheld analyzer provides results for some of the most commonly ordered medical tests at the patient's side in just minutes.

#### *Vascular*

- **Coronary** – Abbott offers the next-generation drug-eluting stent, Xience V<sup>™</sup>, and the market-leading bare metal stent, Multi-Link Vision<sup>®</sup>.
- **Endovascular** – Abbott offers two carotid stents and embolic protection systems – Xact<sup>®</sup> and Acculink<sup>™</sup>.
- **Vessel Closure** – Abbott's StarClose<sup>®</sup> is designed to facilitate secure closure of the femoral artery following a catheterization procedure.
