

# Meridia<sup>®</sup> Security Features (Bottles)

As part of Abbott's ongoing efforts to enhance patient safety and combat counterfeiting of pharmaceutical products, Abbott is incorporating security features into Meridia packaging materials. This transition may require several months to complete. Please exercise normal due diligence prior to dispensing or using existing inventories of Meridia bottles that do not have the new features.

**For your security, please note:**

1. Meridia bottle labels are printed with color-shifting ink. When viewed at one angle, the ink appears violet in color. When changing the viewing angle, the ink gradually changes colors to eventually appear green.
2. You should accept a Meridia bottle only if the ink on the label shifts colors as described above. Please contact Abbott immediately if you suspect that you have received counterfeit Meridia.
