

OUR PROMISE

We're dedicated to fulfilling the promise of human potential, in all places, in all aspects and stages of life. We believe that health is the key to that promise. Because at our healthiest, we're capable of achieving anything. And that's why our pursuit of helping people achieve their best health at every life stage will never end. This is how we put that belief into practice each and every day.

We are here for the people we serve in their pursuit of healthy lives. This has been the way of Abbott for more than a century—passionately and thoughtfully translating science into lasting contributions to health.

Our products encircle life, from newborns to aging adults, from nutrition and diagnostics through medical care and pharmaceutical therapy.

- We advance leading-edge science and technologies that hold the potential for significant improvements to health and to the practice of healthcare.
- We value our diversity—that of our products, technologies, markets and people—and believe that diverse perspectives combined with shared goals inspire new ideas and better ways of addressing changing health needs.
- We focus on exceptional performance—a hallmark of Abbott people worldwide—demanding of ourselves and each other because our work impacts people's lives.
- We strive to earn the trust of those we serve by committing to the highest standards of quality, excellence in personal relationships, and behavior characterized by honesty, fairness and integrity.
- We sustain success—for our business and the people we serve—by staying true to key tenets upon which our company was founded over a century ago: innovative care and a desire to make a meaningful difference in all that we do.
