

# Abbott Consumer Rights Requests - California Consumer Privacy Act (CCPA)

This page applies to residents of California. If you are a resident of another country, please [click here](#) to find the Abbott.com site for your country.

Read below to find the appropriate form for your Data Subject Access Request to Abbott.

## Abbott Diabetes Care

Abbott's Diabetes Care division is continually developing new and innovative products to reduce the discomfort and inconvenience of blood glucose testing. Abbott's Diabetes Care for FreeStyle products designs, develops and manufactures leading-edge continuous glucose monitoring systems, blood glucose monitoring systems and test strips for use in both the home and hospital settings.

For CCPA requests for Abbott Diabetes Care, [click here](#) or call (888) 332-0121.

## Abbott Nutrition

Abbott Nutrition is a leader in nutrition science, research and development. Our goal is to deliver nutrition products and education that meet the changing needs of families across the world. We make products to help babies and children grow, that work to keep bodies strong, and that support the unique nutritional and therapeutic needs of adults.

These products include:

- Similac® infant formulas
- PediaSure® to help kids grow\*
- Pedialyte® hydration for kids and adults
- Ensure® for active adults
- ZonePerfect® to fuel busy days
- Glucerna® for people with diabetes

For CCPA requests for Abbott Nutrition, [click here](#) or call (800) 986-8850.

\*Studied in children at risk for malnutrition.

## Abbott Rapid and Molecular Diagnostics

Abbott Rapid Diagnostics offers a wide range of consumer products and support services in diabetes, cardiometabolic disease, infectious disease, toxicology, and other medical conditions.

For all HIPAA requests, please [click here](#).

For CCPA requests for Abbott Rapid Diagnostics, Abbott Point of Care products (including i-STAT, Piccolo Xpress), Abbott STARLIMS lab informatics solution or Abbott molecular diagnostics products (e.g., AnueVysion, IntelliFISH, PathVysion, UroVysion, FISH), [click here](#).

## **Abbott Diagnostics**

Abbott Diagnostics offers a family of diagnostic and blood screening instruments professional services or informatics solutions (e.g., Alinity, AlinIQ, ARCHITECT, Accelerator, CELL-DYN). If you are a Health Care Professional or distributor who has visited our division website to engage Abbott, please click below to submit a CCPA request for Abbott Diagnostics.

## **Abbott Neuromodulation**

Abbott Neuromodulation offers specialized devices for people suffering from chronic pain and movement disorders through solutions that deliver stimulation to the spinal cord, dorsal root ganglion and the brain. For more information about Abbott Neuromodulation devices, [click here](#).

For CCPA requests for Abbott Neuromodulation, [click here](#).

## **Abbott Cardiovascular and Heart Failure Solutions**

Abbott heart failure and cardiac rhythm management devices keep the heart beating at a healthy pace with pacemakers, implantable cardiac defibrillators, diagnostic and ablation catheters, mapping and visualization systems and implantable cardiac monitors. Solutions for treating heart failure with left ventricle assist devices, cardiac resynchronization therapy and a pulmonary artery pressure monitoring system mean we have many ways to get people's hearts working better sooner. For more information about Abbott Cardiovascular and Heart Failure devices, [click here](#).

## **Abbott Electrophysiology Solutions**

Abbott Electrophysiology solutions include the following:

- EnSite Precision™ Cardiac Mapping System allows physicians to capture more data in a shorter amount of time during cardiac mapping to support ablation procedures.
- Advisor™ HD Grid Mapping Catheter offers a first-of-its kind electrode configuration for high density mapping. The catheter is used in conjunction with our EnSite Precision Cardiac Mapping System.
- Our FlexAbility™ Ablation Catheter, Sensor Enabled™ and TactiCath™ Quartz Contact Force Ablation Catheter ablate tissue in the heart to restore the heart's rhythm. Ablation is a procedure to remove a small area of heart tissue causing irregular heartbeats.
