R&D FOCUS

DIAGNOSTICS

Providing diagnostic testing solutions that improve healthcare and provide significant medical value

MEDICINES

Offering high-quality, trusted, affordable medicines in emerging markets

MEDICAL DEVICES

Delivering one of the strongest new medical device pipelines in the industry

NUTRITION

Developing science-based nutrition products

* For the year ended December 31, 2017. **Fingersticks are required for treatment decisions when you see Check Blood Glucose symbol, when symptoms do not match system readings, when you suspect readings may be inaccurate, or when you experience symptoms that may be due to high or low blood glucose. For more information about FreeStyle Libre system's indications for use and safety information, please visit: <https://freestylelibre.us/safety-information>. †Product availability varies by geography and five of the six Alinity diagnostics systems are not for sale in the United States. The Alinity™ ci-series instruments for clinical chemistry and immunoassay diagnostics have received U.S. Food and Drug Administration 510(k) clearance.
