Approved science-based target

The Science Based Targets initiative has validated that the corporate greenhouse gas emissions reduction target(s) submitted by

Abbott

have been deemed to be in conformance with the SBTi Criteria and Recommendations (version 4.2). The SBTi's Target Validation Team has classified your company's scope 1 and 2 target ambition and has determined that it is in line with a well-below 2°C trajectory.

The official target wording is:

Abbott commits to reduce absolute scope 1 and 2 GHG emissions 30% by 2030 from a 2018 base year. Abbott also commits that 82% of its suppliers by emissions covering purchased goods and services and upstream transportation and distribution will have science-based targets by 2026.*

**The target boundary includes land-related emissions and removals from bioenergy feedstocks."*
