Second-quarter business highlights

Leadership in noninvasive colorectal cancer (CRC) screening

With 50 million Americans not up to date on CRC screening, the American Cancer Society reaffirmed Cologuard® and Cologuard Plus® as preferred noninvasive screening options for adults age 45 and older who are at average risk for CRC

Breakthrough biowearables for people with diabetes

Secured CE Mark for Libre® Duo systems, the world's first dual glucose-ketone sensing technology, which supports daily diabetes management and helps detect rising ketone levels that can lead to a diabetic ketoacidosis emergency

Next-generation cardiovascular technologies

Completed enrollment in our TECTONIC U.S. pivotal trial evaluating our investigational Coronary Intravascular Lithotripsy System and shared late-breaking data at the Heart Rhythm Society conference demonstrating strong clinical outcomes across our pulsed field ablation and conduction system pacing portfolios

*Comparable sales growth includes the prior and current year sales of Exact Sciences, a cancer diagnostics company that Abbott acquired on March 23, 2026. Comparable sales growth excludes the impact of foreign exchange and revenue in both the prior and current year related to compensation payments received by the Structural Heart business under a multi-year agreement with a competitor. The final payment under this agreement was recognized in the first quarter of 2026.

1. On a GAAP basis, second-quarter Abbott sales increased 13.0%. 2. Second-quarter 2026 GAAP diluted EPS was $0.53. 3. Abbott has not provided the related GAAP financial measures on a forward-looking basis for these forward-looking non-GAAP financial measures because the company is unable to predict with reasonable certainty and without unreasonable effort the timing and impact of certain items such as restructuring and cost reduction initiatives, charges for intangible asset impairments, acquisition related expenses, and foreign exchange, which could significantly impact Abbott's results in accordance with GAAP.
